## Comprehensive Logistics - From pre-factory logistics to EC logistics -

**We propose and provide services based on 30 years of experience in a wide range of operations, including pre-factory logistics, TC (transport type), DC (inventory type), personal logistics, and distribution processing.**

### Household Goods

We are experienced not only in providing TC (transport type) and DC (inventory type) services, but also in complex logistics center operations that combine these two types of operations.

We handle general household goods (manufacturer and wholesaler), bicycle goods (retail), sporting goods (retail), camping goods, pet goods, etc.

### Industrial Goods

We provide DC (inventory type) services for Japanese automobile manufacturers and for consumer electronics manufacturers.

We handle industrial plastic fasteners, automotive plastic parts, and more.

We use measuring equipment to perform fractional packing work and individual packaging work for dealers.

### Character Goods and Clothing

We provide BtoB/BtoC integrated DC (inventory type) services.

We handle character goods, goods for professional baseball teams, goods for J-League teams, apparel, outdoor sporting goods, etc.

We provide distribution processing services such as price tagging, gift wrapping, and the creation of preserved flower arrangements.

### Operation Center

Niigata Nakajo, Niigata Murakami, Sagamihara, Sagamihara Ogura, Atsugi, Kobe, Okayama Hayashima, Okayama Akaiwa

## Medical Logistics

**Providing nationwide delivery services for pharmaceuticals and medical devices**

**A one-stop logistics service compliant with laws on pharmaceuticals and medical equipment**

Our highest priority is the quality and stable supply of products. We will continue to improve safety, security, and stable distribution to meet the various needs of our customers.

We have air-conditioned and temperature-controlled warehouses, cold storage facilities, and hazardous materials warehouses, and can manage expiration dates in addition to production lots.

With over 20 years of experience in pharmaceutical distribution and a track record in operating joint centers for pharmaceutical manufacturers, we are committed to good distribution based on SOPs that comply with GMP ISO9001 PMS.

Moreover, we have obtained business licenses for various types of processes (packaging, labeling, storage).

We support various types of distribution processing (industrial operations) that require business licenses, and we support distribution processing sales promotion and parts of the production process based on GMP management standards.

### Operation Center

Sapporo No. 1, Kita-Kanto Itakura, Tsukuba, Ageo, Kawaguchi,  
Daito, Hirakata, Fukuoka, Tatebayashi, Meiya

## Food Logistics

**From incoming shipment and storage to delivery,  
we offer our services 24 hours a day, 365 days a year.  
We cater to major mass merchandisers and convenience stores.**

We strive to establish a low-cost logistics systems by working with shippers for all food products shipped from food factories, production areas, and markets, until the products arrive at supermarkets and convenience stores. We will continue to provide better proposals, development, and management services for any kind of food distribution operation, a business that will continue to grow more diverse in the years to come.

### TC (Transport Type)

The goods are immediately sorted and delivered to their destinations on time and on schedule.
